Your cute ? on Chron 1/18 "The Chinese Connection" story spells ~~Striso~~ "WHO"? (Now WHO would think of fingering the Peoples Republic of China? rpt?). Because I've been getting the NYTimes, I know that has not yet reached you, that Gold blames his assistant and that both have backed down. One might ask under what pressure, if more than reporters' questions (I've forgotten details). All the evidence cited is evidence China could not be the source. Too many have understood their Orwell.
